Importance of Nutrition Education

- Gives students the knowledge, skills, and confidence to make healthy eating choices.
- Nutrition education may include:
  - teaching about healthy meal patterns
  - reading Nutrition Facts labels
  - identifying sources of added sugars, saturated fats

Get involved! Ask your teacher how you can support nutrition education in the classroom.
We want kids to have the opportunity to be physically active at school.

Recommended physical activity for children and adolescents = 60 minutes or more each day.
Physical Activity & Physical Education

Our goals:

- All students will receive physical education class once a week for 50+ minutes.
- All students in grades K to 5 will receive 25+ minutes of recess per day. Students in grades 6-8 receive recess at least 4 days per week.
- Meditation and Tai Ji weekly for all middle school students.
- Active Electives and Ensembles (Step, Indonesian Dance, Outdoor Games, Lion Dance, Chinese Opera)
- Activity Breaks in the Classroom (Ex: Sprint Exercises, Go Noodle, Flash Fit)
- After-School Activities: Delphi Dance (Just Dance), Middle School Basketball
- Annual Play Day to promote active play at all ages
Our School Wellness Policy

• Our wellness policy supports healthy school breakfasts and lunches.
• All other food and drinks sold in school during the school day must follow the Smart Snacks standards. FACTS purposely chooses not to have vending machines in our building.

_Smart Snacks_ regulations standardize nutrition requirements to make sure all kids have access to healthy snacks that are consistent with the nutrition education they receive, and promote overall healthy eating habits.
Keeping Fundraisers Healthy

- **Drinking Water** – Students are permitted water bottles.
- **Celebrations and parties**
